

Project Brief

Client: [Client Name / Company] **Project:** [Project Name] **Date:** [Date] **Completed by:** [Client contact name / title]

Fill this out before scoping or pricing begins — it captures what the project needs to achieve before either of us defines how to get there.

Goal

1. In one or two sentences, what is this project meant to achieve? [Answer]
2. If this project succeeds, what changes as a result? [Answer]

Audience

3. Who is this actually for — customers, internal team, a specific segment? [Answer]
4. Is there anything important to know about how this audience currently behaves or feels? [Answer]

Background

5. What currently exists (if anything) that this project replaces or builds on? [Answer]
6. Has something like this been tried before? What happened? [Answer]
7. Why is this project happening now? [Answer]

Constraints

8. Budget range (even a rough one)? [Answer]
9. Target timeline or hard deadline? [Answer]
10. Any brand, technical, legal, or approval requirements this must meet? [Answer]

Success Criteria

11. How will we know this project worked? Name a specific metric, outcome, or sign-off. [Answer]
12. Who needs to agree it's successful before it's considered done? [Answer]

Out of Scope (for now)

13. Is there anything adjacent to this project that should explicitly NOT be included? [Answer]

Once this brief is complete, it becomes the basis for the Scope of Work — deliverables, exclusions, and timeline are drawn directly from what's captured here.
