Milestone Approval

A milestone is considered complete — and payment due — when either:

- ☐ The Client provides written approval of the deliverable, **or**
- ☐ **[X]** business days have passed since delivery with no written objection ("deemed approved")

Invoicing

Upon each milestone trigger, [Your Name / Business Name] will issue an invoice referencing this schedule (see Invoice Template) within **[X]** business days. Standard payment terms and late fees from the Service Agreement apply to each invoice.

If the Project Pauses or Is Canceled

If the engagement is paused or canceled before a milestone is reached, Client will be invoiced for the percentage of that milestone's work completed to date, calculated at [Your Name / Business Name]'s discretion based on hours logged or deliverables in progress. See the Service Agreement's Termination section (and Kill Fee Clause, if included) for any additional cancellation terms.

Notes

- This schedule reflects the deliverables and sequence defined in the Scope of Work. If scope changes via a Change Order, this schedule should be revised and re-issued to match.
 - Milestone amounts are non-negotiable once work begins on that milestone; changes to remaining milestones can be renegotiated by mutual written agreement.
